

Home Solar _floor

Bollard with a dark grey or corten painted die-cast aluminium frame and a transparent polycarbonate diffuser. The high IP rating (IP54) makes the lamp ideal for outdoor use. Home Solar is equipped with solar panel, allowing it for free installation, no connection to electrical mains. This version is equipped with a motion and a crepuscular sensor, and a peg for quick and easy installation on the ground. Home Solar come with a dusk sensor, which activates the lamp in “energy saving” mode (30 lm, 0,33 W); the bollard is also equipped with a motion sensor, which activates the full power mode when movement is detected (bringing back light to energy saving mode after 60”).
